X-City 250/125

The Art of Engineering

At Yamaha, we aspire to create exciting machines for this fast-moving world. To look into the future and find ways of making life better for our customers. To create dynamic and inspirational machines which fit seamlessly into our lives and bring freedom, fun and fulfilment to us all. We invest passion into everything we build by focusing on jewel-like 'small engineering'. It's a philosophy of precision and perfectionism that has generated a spectacular 50-year stream of two-wheeled innovation.

Making scooters is a skill, but making scooters like the sophisticated X-City work beautifully is an art.
The art of engineering.

It's no exaggeration to say that the X-City 250/125 shatters old-fashioned ideas about personal transport. The precision and stability of its high-wheeled ride (16inch front/15inch rear) is one of the most significant advances. The feeling of rider security is remarkable. Better yet, you don't lose any of the effortless manoeuvrability you'd rightly expect from any scooter.

X-City 250/125's liquid-cooled four-stroke engines, brings an air of relaxed refinement to the often frantic city riding experience. Traffic gaps are easily exploitable thanks to the slender frontal aspect of the freshly-styled bodywork. Protection from the elements isn't compromised, however; you'll be amazed how little wind and rain gets past the new adjustable windscreen. Its practical too with a glovebox, underseat storage and on the X-City 250 there's a new rear rack to transport unexpected items. No matter how wet or dark the streets are, confidence-inspiring front and rear disc brakes, high-visibility twin headlights and twin taillights give you plenty of presence. Is the X-City a scooter revolution? We think so.

Right: X-City 125 in Midnight Black

► Information with a sporty edge: well-stocked red-backlit instrument panel is as classy as it is useful.

► The lockable glove box (with integral ticket holder) is perfect for storing small items needed close to hand.

► Under the seat there's a storage locker for a jet helmet, business bag or loads of shopping.

► Passengers are amply catered for with stylish grab rails, a sculpted seat and generous fold down foot pegs.

► Manage the elements and your view forward with the new adjustable perspex screen.

X-CITY

► Flexibility and quick responses are useful scooter attributes, not just in an urban environment but out of town too. Mated to a beautifully cushioned auto transmission, the fuel-injected X-City 250 engine turns high torque into action from very low engine speeds. Your non-riding downtime is kept to a minimum by the long-range 10.5-litre tank, and the engine is fully EU3 emissions-compliant, too. It all adds up to heavyweight performance with a light footprint.

Engine

Type:	Liquid cooled
	4 stroke, single cylinder
Displacement:	249.8 cc
Bore x stroke:	69 x 66.8 mm
Compression ratio:	10.0 ± 0.4 : 1
Maximum power:	15.6 kW @ 7,500 rpm
Maximum torque:	21.5 Nm @ 5,800 rpm
Lubrication system:	Wet sump
Carburettor:	Fuel Injection
Ignition system:	T.C.I.
Starter system:	Electric
Fuel tank capacity:	10.5 litres
Transmission system:	V-belt Automatic

Chassis

Overall size (L x W x H):	2,175 x 785 x 1,430 - 1,475 mm*
Seat height:	790 mm
Wet weight (incl. full oil and fuel tank):	173 kg
Wheelbase:	1,470 mm
Min. ground clearance:	165 mm
Front suspension system:	Telescopic fork
Front wheel travel:	100 mm
Rear suspension:	Unit swing
Rear wheel travel:	105 mm
Front brake:	Disc Ø 270 mm
Rear brake:	Disc Ø 240 mm
Front tyre:	120/70 - 16
Rear tyre:	140/70 - 15

* Overall height: 1,430-1,475 mm due to adjustable windscreen

Colours:

Competition white (BWC1)

Stonehenge Grey (DNMH)

Fine Silver (FIS)

Midnight Black (SMX)

High style

You're a determined person. You go about your business professionally, with a strong sense of purpose and efficiency. You appreciate functional design, but you don't like labels.

For work, you need something that will get you to your appointments with total reliability and a degree of understated style.

X-City answers the brief perfectly. Maximising agility and comfort while minimising your profile, this high-fashion, high-wheel scooter is the ideal enabler for your busy lifestyle. It adapts to every situation with seamless ease, effortlessly cutting through both traffic and perceptions.

And not just within business hours either. When it's time to cut loose, the X-City takes you – and maybe someone else that's special to you – there in speedy comfort. Practical, credible, enjoyable, attainable, fashionable, X-City is an inspired mobility solution that quietly reflects your focused approach to life.

X-CITY 125

► Performance, refinement, simplicity: X-City 125's liquid cooled, four-valve fuel-injected 125cc engine has it all. Yamaha's relentless programme of engineering development has produced a unit that is practically foolproof. Operation is effortless; maintenance is infrequent and inexpensive. It's electric start, naturally, and clean too, with full EU3-spec emissions compliance.

Engine

Type:	Liquid cooled
	4 stroke, single cylinder
Displacement:	124.7 cc
Bore x stroke:	52 x 58.6 mm
Compression ratio:	11.2 : 1
Maximum power:	10.76 kW @ 8,750 rpm
Maximum torque:	11.7 Nm @ 8,750 rpm
Lubrication system:	Wet sump
Carburettor:	Fuel Injection
Ignition system:	T.C.I.
Starter system:	Electric
Fuel tank capacity:	10.5 litres
Transmission system:	V-belt Automatic

Chassis

Overall size (L x W x H):	2,175 x 785 x 1,430 - 1,475 mm*
Seat height:	790 mm
Wet weight (incl. full oil and fuel tank):	167 kg
Wheelbase:	1,455 mm
Min. ground clearance:	165 mm
Front suspension system:	Telescopic fork
Front wheel travel:	100 mm
Rear suspension:	Unit swing
Rear wheel travel:	105 mm
Front brake:	Disc Ø 270 mm
Rear brake:	Disc Ø 240 mm
Front tyre:	120/70 - 16
Rear tyre:	140/70 - 15

* Overall height: 1,430-1,475 mm due to adjustable windscreen
