

**XJ6**

Look sharp.

This funky, naked version of the XJ6 Diversion is pure Yamaha spirit with serious street attitude. Its compact chassis enables easy handling, while the 600cc liquid-cooled, 4-stroke inline 4-cylinder engine delivers good bottom power with plenty of acceleration.

Its low-seat height and low weight help to create a road-hugging, streamlined machine, and the XJ6/ABS's four-into-one exhaust with midship muffler centralizes mass for enhanced agility.

Digital fuel injection and a three-way catalyzer, with O2 sensor, enable improved fuel consumption, while the adjustable handlebars complete the perfect picture.

- 600cc inline 4-cylinder engine
- Naked version of the XJ6 Diversion
- Compact chassis for easy handling
- Easy-to-handle power delivery
- A great all-round performer
- U-lock under-seat storage

***Yamaha XJ Series
motorcycles: real
riding pleasure.***

Yamaha motorcycles never compromise on quality, and this is reflected in the design and performance of the XJ Series. When you're comfortable on a motorcycle, that's when you have fun. Whether leisure riding or commuting that's what the XJ Series will mean: real riding pleasure.

Yamaha's Art of Engineering philosophy makes you feel at one with the machine, and the XJ Series' 4-cylinder engine is crucial to this, offering smooth power delivery whenever you open throttle. This combination of cutting-edge technology and attention to detail is paramount to the XJ Series and creates the confidence every rider should experience.

Powerhouse performance

At the heart of the XJ6/ABS lies a 600cc, 4-stroke, 4-cylinder engine that serves up a journey packed with fun but that's light on your pocket, too, while digital fuel-injection technology and a three-way catalyser with O2 sensor lower emissions.

Superior handling

A four-into-one exhaust with a midship muffler contributes to centralise the mass of the XJ6/ABS and delivers enhanced agility, while a lightweight tubular diamond-type frame and 41 mm front forks, and monocross rear suspension, take road-hugging to the max.

Ride in comfort

Feel how comfortable the XJ6/ABS can be – from its low seat-height, giving you an amazing feeling of confidence and control, to the adjustable handlebars that mean you can find the best riding position.

Storage you can trust

The XJ6/ABS is a motorcycle that can cope with your flexible lifestyle. For added functionality we offer an optional sturdy rear carrier and optional big (46 litre) topcase so you can easily stow away an overnight bag or shopping. An under-seat storage compartment features a U-lock for added security.

Clear instrument panel

A quick glance at the instrument panel will reveal all the information you need for continuing your journey with total peace of mind. The XJ6/ABS's trick dash panel includes a fuel gauge, rev counter and time display.

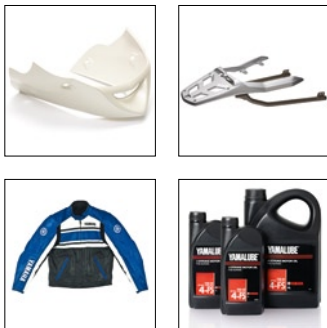

ABS available as an option

You can enjoy the twists and turns of the open road, safe in the knowledge that you have responsive brakes at your fingertips. ABS will help prevent a skid and bring you to a controlled stop.

| ENGINE | |
|--------------------|--|
| Type | Liquid-cooled, 4-stroke, forward-inclined parallel, 4-cylinder, 4-valves, DOHC |
| Displacement | 600cc |
